CHARM 2013

Topics:

- D-Dbar Mixing
- Time-dependent CP Violation
- Time-integrated CP Violation
- Leptonic, Semileptonic and Rare Charm Decays
- New Physics Scenarios for Charm Decays
- Charm Meson and Baryon Spectroscopy
- New Charmonium-like Hadrons (XYZ Hadrons)
- Hidden Charm Spectroscopy and Transitions
- Production of Charm and Charmonia
- Advances in Theoretical Tools
- Experimental Charm Facilities – Status and Future
